17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been Temporarily Abandoned since February 1, 1973. From July 10, 1970 until August 15, 1971, this was an active Water Injection Well in our Far West Loco Hills Sand Unit Flood No. 58. Due to poor water injection rates, permission was granted to convert to production. Oil production also proved to be very poor.

Plastic coated tubing and an injection packer was installed in this well on September 18, 1975. Injection lines are now being laid. The well should be an active injection well by October 10, 1975.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.

SIGNED George T. Kincheloe TITLE Petroleum Engineer DATE September 30, 1975
