

FLYNN-WELCH & YATES

Oil Producers and Operators

Artesia, New Mexico
December 7, 1939.

Mr. Roy Yarbrough
Oil & Gas Inspector
Hobbs, New Mexico

Dear Sir:

Replying to your letter of December 6th, we wish to advise that on October 17th, we mailed to your office Notice of Intention to Drill our Well #1, 9-18-29, Loco Hills Field. However, we did not receive an approved copy. We did receive an approved copy of Notice of Intention to test Casing Shut-Off for running 8 $\frac{1}{4}$ " casing, also Notice to run 7" O. D. casing. If you do not have the notice of Intention to Drill we will be glad to prepare another notice.

Yours very truly,

Flynn-Welch & Yates
