17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Water has surfaced around the casing of this well. We request permission to flow this well into surface pit while running tubing and packer to locate casing leak. We will set a drillable bridge plug in bottom joint of 6 5/8" casing @ approximately 2380'. Plans are to temporarily abandon well but hold for future tertiary recovery operations.

Verbal permission granted during telephone conversation with Jim Knauf 2-6-78.
