5-25-78 --- A water leak of 6 BWPD has developed from the casing head. We have tested the tubing and find that the tubing is not leaking. We request permission to monitor and test this well until the leak is located. The District Engineer will be notified of our plans before the leak is repaired.

A pit was dug to contain the water from this leak and we request permission to maintain this pit in a fenced and dried up condition to use as needed.
