NOTICE OF INTENTION TO PULL OR ALTER CASING	SUPPLEMENTARY WELL HISTORY
NOTICE OF INTENTION TO ABANDON WELL	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 17, 1954

Well No. 3 is located 330 ft. from N line and 930 ft. from E/W line of sec. 1717  
(Of Sec. and Sec. No.)16 S  
(Twp.)20 E  
(Range)R.R.P.M.  
(Meridian)Los Hills  
(Twp.)16 S  
(County or Subdivision)New Mexico  
(State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

The following will reconcile our conversation we had with Mr. Frost on March 17, about intentions of well treatment.

On March 16th, we acidized with 1000 gals from 2977' to 3020' with Lucas packer, followed with 2000 gals of Petro-Cres in same zone with one and a half pounds of Ottawa sand.

On March 23th, treated the above zone with 3000 gals of acid. Well in making 20 bbls previously per day, now is making approximately 20 bbls per day.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
