Re: Featherstone Well in SE/4 SE/4
of Section 27-18S-29E.

Dear Sir:

We are in receipt of your letter dated June 7, 1961 on the above-captioned well. The well file shows this well drilled to a total depth of 2207'. There is 365' of 8 5/8" casing and the well has been temporarily abandoned. Also, it has been assigned back to the lease owner, Mr. Featherstone.

Very truly yours,

OIL CONSERVATION COMMISSION

Gentlemen:

Would it be possible for you to give me any information concerning a change in the status of the well drilled by Featherstone in the SE/4 SE/4 of Section 27-18S-29E. The information I have been able to obtain is that it was plugged at 2000 feet and 400 feet of surface casing was left in the hole. I would appreciate any information you can give me on this well.

Yours very truly,

J. V. Hardwick
