DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

TD 395 .

Plans are to check for suitable plug at bottom of casing, salvage what casing possible, fill hole with fluid and set regulation marker at surface with 30' cement plug. (verbal approval given by representative of U.S.G.S. this date, 6/15/63)

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced. Company Yates Petroleum Corporation Address 309 Carper Building Artesia, N.M. Geologist
