### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We are presently drilling a water injection well 330 feet from the south line and 330 feet from the west line of Section 32-1/2-30E to balance the injection across the lease line. This well will be placed on injection as soon as completed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
