SECRET

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casings were "sidetracked," or left in the well, give its size and location. If the well has been dynamited, give date, position, and number used or shots. If plugs or bridges were put in to test for water, state kind of material used, position, and the reasons for plugging or bridging.
