17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

On March 20, 1976, this well was plugged and abandoned as follows:

Two-inch (2") tubing was run to bottom 2907 feet and the hole circulated with heavy mud:

25 sack cement plug 2907 to 2807 feet across Loco Hills;
25 sack cement plug 1250 to 1150 feet at base of Salt;
35 sack cement plug 550 to 450 feet in and out base of 8 5/8 inch casing;
10 sack cement plug and marker at surface.

The cementing was done by Halliburton, and heavy mud is between all plugs.
