Mr. M. L. Armstrong
New Mexico Oil Conservation Commission
Artesia, New Mexico

Dear Sir:

We purchased 286 Bbls. of refine oil from Petro Services to frac our Lanning Fed. # 1 in Section 25, Township 18 South, Range 30 East.

This refined frac oil was some of the last that Conoco Refinery is making. Therefore Southwestern, Inc. needed 286 more bbls of oil and as you know from our verbal conversation we let them buy this oil.

They used this oil to frac their Carper-Malone # 1 in Section 4, Township 19 South, Range 31 East, and have now recovered it and want to sell it.

I have tried to fill out a C-126 form but the form does not allow for this type of exchanging oil.

If you need any futher information please let me know.

Sincerely,

A. D. Fryman
