Re: Form C-123

Dear Sir:

According to our records, your S. D. Gates #4 in Unit L of Section 26 T18S R30E, Eddy County, is outside the boundaries of a designated pool producing from the Queen and Grayburg formations.

Please file the original and one copy of the enclosed Form C-123 for this well with this office as soon as possible.

Yours very truly,

OIL CONSERVATION COMMISSION

Figure 1 consists of five scatter plots labeled (a) through (e). Each plot has 'Number of children' on the x-axis and 'Number of children in next generation' on the y-axis. The data points are represented by small black dots, and a solid black regression line is drawn through them. Plot (a) shows data for all children. Plot (b) shows data for children with a partner. Plot (c) shows data for children with a partner and a job. Plot (d) shows data for children with a partner and a job and a child. Plot (e) shows data for children with a partner and a job and a child and a grandchild. In all plots, the regression line has a positive slope, indicating that as the number of children increases, the number of children in the next generation also tends to increase.
