NOTICE OF INTENTION TO ABANDON WELL.....			

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

McLean Oct 11, 1954, 1954
Well No. 1 is located 2310 ft. from N line and 330 ft. from E line of sec. 27
NE 1/4 SE 1/4 Sec 27 -- 18 South-30 East NMPM
Unk. signed Eddy New Mexico.
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Expect to drill this well to the Red Sand which should be encountered at about 2750 to 2800'. Well will be drilled with cable tools, 8 1/4" pipe will be set on top of the salt at about 600 feet and cement circulated to surface, pipe weight 32 lbs. If we are able to make a well expect to set production string of either 5 1/2" or 7" pipe on bottom and cement back up to the surface string, the pipe would then be perforated in the pay zone and treated with sand frac. The above program as we understand would comply with the requirements for a well drilled in the Potash area.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company O. H. Randel and Olen F. Featherstone.
