Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

United Oil & Minerals, Inc. recommends TA the well versus PxA, because United is currently in the process of performing a waterflood engineering study.

The waterflood engineering study will involve converting the NBQU #20 into an probable injection well or returning the well back to production. The estimated date is December 2001.
