D. S. Nutter  
Chief Engineer

To Dick Stamets - Artesia OCC  
Re your letter of 9/29 to  
ALP regarding Reading & Bates  
Simms Fed No. 1.

By letter of Sept 14, CC to  
M. L. Armstrong, we authorized  
operator to produce well without  
tubing until Oct 15 and set  
the matter for hearing Oct 4.

If operator chooses to install  
tubing by Oct 15 he must let us  
know by Oct 4 and case will be  
dismissed. Otherwise he must  
appear at hearing and substantiate  
extension beyond Oct 15.

By the way, what ever

happened to the Southern  
Union well which we gave  
a similar exception  
a couple of months ago?

I don't recall whether  
your ofc or our ofc  
approved taking less flow  
on temporary basis.

Please advise.

Sam
