Gentlemen:

O We are in receipt of an approved copy of form C-103 on your Puckett A 5-G, 24-17-31, Maljamar Pool indicating that the well is now capable of making top allowable. Before we will be able to increased the allowable to 41 barrels daily it will be necessary for you to file form C-116 (Gas Oil Ratio Report) in the original and one copy with this office.

P Rule 301 of the Rules and Regulation prohibits the assignment of an allowable greater than the amount of oil produced on the latest Gas Oil Ratio test. The latest report on this well shows that it produced 17 barrels of oil.

Y Your prompt attention should be given to the matter of filing form C-116 since the increase in allowable will become effective on the date that we receive the form in this office.

Yours, very truly,

OIL CONSERVATION COMMISSION
