HISTORY OF OIL OR GAS

HISTORY OF OIL OR GAS WELL					
It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in casing, stringer, or any casing was "sidetracked," or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and results of bombing, redrilling, etc.
