Oil & Gas Lease #647,
Assignment #297.

Gentlemen:

The above designated wells, within the above designated assignment, are reported to the Commission as no longer producing and not plugged. You are the record owner of said assignment and are, of course, responsible for the proper plugging and abandonment, which must be approved by the Commission.

Please advise immediately, and I trust that it will not be necessary to issue a citation to appear before the Commission to show cause why said wells have not been plugged.

Very truly yours,

OIL CONSERVATION COMMISSION
