

-2-

well, may bob up sometime and raise thunder about his well being plugged and ruined without his having signed the proper application for such. We have a case just of that nature, but fortunately the plugging was stopped before much of anything happened. If a case is made of the old wells, it should be properly plugged, then whoever the owners may be are shut off if they do not appear before the Commission at the time indicated and present their case. If you have many of such old abandoned wells, it seems to me that a number of them within some given area, say Lea County, might be included in one case.

The three original well logs in the above matter are being returned herewith for your files.

With kindest personal regards,

Sincerely yours,

OIL CONSERVATION COMMISSION
