RE: Welch #1 Nix-State,
Recompletion, 250'
from East line, 1070'
from South line, Sec.
8-T18-R28, Eddy County,
New Mexico.

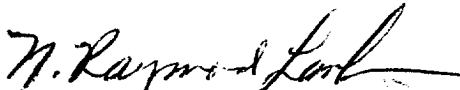

Dear Mr. Welch:

We have your verbal proposal for the reworking of a well at the above location. In that the location is 250 feet from the Wilson Oil Company lease line, a waiver or Oil Commission hearing is necessary for the approval of the unorthodox location. This letter will serve as a waiver from the Wilson Oil Company to you, granting permission to rework the subject well at the unorthodox location.

It is our understanding that the well will not be deepened to a depth greater than 2500 feet.

Sincerely yours,

WILSON OIL COMPANY

H. Raymond Lamb
Vice-President

HUMBLE OIL & REFINING COMPANY

HOUSTON 1, TEXAS

March 18, 1954

Mr. W. C. Welch
P. O. Box 564
Artesia, New Mexico

Dear Mr. Welch:

The Gross No. 1 State well was drilled to a total depth of 2378 feet in 1925, and was located 250 feet from the North and East lines of the Southeast Quarter of the Southeast Quarter (SE/4 of SE/4) of Section 8, Township 18 South, Range 28 East, Eddy County, New Mexico.

The above location is a direct offset to Humble's Lease No. 105713, which covers, among other lands, the Southwest Quarter (SW/4) of Section 9, Township 18 South, Range 28 East, Eddy County, New Mexico.

It is our understanding that you now wish to re-enter the old hole located as described above for the purpose of testing the Grayburg, Queen, and Yates sands.

This is to advise the New Mexico Oil and Gas Conservation Commission, as well as yourself, that we hereby waive all objections to the above stated location, so long as the well is drilled at the exact location quoted above.

Yours very truly,

HUMBLE OIL & REFINING COMPANY
