Gentlemen:

The NMOCD does not believe the subject well is properly plugged & abandoned, but since the well is located over one half mile from the nearest proposed injection well we do not believe the well needs to be re-entered at this time.

If at a future date water flow problems arise in the area of the subject well you may be asked to re-enter and re-plug the well.

If you have any further questions concerning this matter please feel free to call me.

Sincerely,
