28E

NMPM,

Artesia

(Unit)

Pool

Eddy

County.

FULL DETAILS OF PROPOSED PLAN OF WORK

(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

1. Propose to pull rods, tubing and packer. Plug well back to 2400' to seal off top of it. Lovington pay perforations from 2455' to 2460', using Bridge Plug with 3 sxs. cement on/
2. Set packer at approximately 2000' and inject water for waterflood operations thru cement lined tubing into 1st Grayburg formation thru casing perforations from 2020' to 2044'.

(This well has previously been operated as a dual completion. Western Yates was operator of the well as a crude oil producer from the Lovington formation. Graridge Corporation was operator of the well for waterflood operations of the 1st Grayburg zone. The Lovington formation is to be temporarily abandoned and Graridge Corporation will continue to operate the well as a water injection well for waterflood operations).

Approved.....
