## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We ran 2820 feet of 5 1/2" casing in this well and cemented with 150 sacks. After waiting for the cement to set we drilled the plug the plug and tests showed complete water shutoff. Drilling was continued.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
