The image shows a tilted, faint version of Form C-128. It appears to be a survey or plat form with a grid-like structure. The form is oriented diagonally, with the top-left corner pointing towards the upper right of the page. The grid consists of several rows and columns, with some cells containing faint text or markings. The overall appearance is that of a scanned document where the form's content is not clearly legible due to the angle and fading.
