Re: State Well No. 1
Section 36-17-31
Undesignated Maljamar
EDDY COUNTY, NEW MEXICO

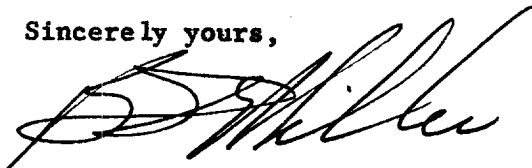

Mr. R. L. Stamets
Oil Conservation Commission
Drawer DD
Artesia, New Mexico

Dear Mr. Stamets:

In regard to our telephone conversation this morning concerning the subject well, please be advised that I have called Coleman Petroleum Engineering Service in Hobbs today and arranged for them to run gas-oil ratio tests on the Maxwell Oil Company State Lease, Well No. 1. I also informed them that they are, immediately upon completion of this test, to forward to you at your office there a photostatic copy of the gas chart and a completed State Form C-116 giving the results of this test.

It is my hope that this information will meet all Commission requirements in regard to this well so that it can be re-instated and given an allowable at an early date. Please advise of any discrepancy or need for additional information in this regard.

Sincerely yours,

B. I. Miller
