Eddy County, New Mexico

Dear Sir:

Form C-101, Notice of Intention to Re-Enter the subject well was approved on September 5, 1969. A field inspection reveals that the well was re-entered and is now standing open at the surface. Further, we have requested the filing of various required reports for this well on several occasions. To date none have been received.

Therefore, we are requesting that all necessary reports be filed, and completion attempted or the well be plugged and abandoned by December 1, 1970.

Failure to comply will result in my requesting that the Commission docket a hearing to permit all interested parties to appear and show cause why the well should not be properly plugged and abandoned.

Very truly yours,

OIL CONSERVATION COMMISSION
