Gentlemen:

On September 29, 1970, an inspection was made of the site of the subject plugged and abandoned well. Said inspection revealed that not all junk had been removed from the location or buried as required by Commission Rules and Regulations. Numerous pieces of wood, conduit, tubing, tubing nipples and other items were left scattered about the location. Further, a large number of quart size oil cans have been thrown out on the south side of the location.

Please have the necessary clean up work completed and notify this office. The well site will then be reinspected and the plugging report, Form C-103, approved.

Very truly yours,

OIL CONSERVATION COMMISSION
