Re: Marathon State #1 670 FSL
& 610 FWL 36-18-28 Eddy
County, New Mexico

Dear Sir:

In reply to your letter of September 17, 1965 regarding forms C-103 and C-105 on the above well.

Commission Rule 1103 requires that within ten days following the commencement of drilling operations, and within ten days following the setting of each string of casing, the operator of a well shall file a report thereof on Form C-103.

The plugging report should always be filed on a separate report, and it will not be approved until after the pits have been filled and the location cleaned.

We do not return a copy of Form C-105 to the operator unless he sends more than the required number, in which case the extras are stamped in and returned. We do not approve this form, but if you want one that has been through this office please send it in and we will stamp it and return to you.

Very truly yours,

OIL CONSERVATION COMMISSION

Re: Marathon Lease No. 10-103
a 10-103-10-103-103
County, New Mexico

Dear Sir:

In reply to your letter of September 11, 1961 regarding
Forms C-103 and C-104 of the above well.

Enclosed with this letter are two copies of the following
and the commencement of drilling operations, and within ten
days following the setting of each string of casing, the opera-
tor of a well shall file a report thereon on Form C-103.

The required report should always be filed on a separate
report, and it will not be approved until after the site have
been filed and the location cleared.

We do not return a copy of Form C-103 to the operator un-
less he sends more than the required number. In which case the
extras are stamped as returned. We do not approve the
form, but if you want one that has been stamped this office
please send it in and we will stamp it and return to you.

Very truly yours,

OIL COMMISSION COMMISSION
