Gentlemen:

We are returning the enclosed Form C-103 on the subject well for corrections and additional information.

According to our records, this well has not been plugged. It was drilled to a total depth of 2950', and temporarily abandoned. No production casing was run.

Said well should be plugged or casing set for a completion attempt in the very near future.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

OIL CONSERVATION COMMISSION
