ARTESIA, OFFICE

RE: Directional Survey on the  
Yates Petroleum Corporation  
Yates "AS" Fee No. 1  
Section 25-18S-25E  
Eddy County, New Mexico

Gentlemen:

There were no deviation surveys taken on the above mentioned well. To the best of our knowledge, the hole is very nearly vertical and it is very doubtful if the bottom of the hole is displaced much horizontally with respect to the top of the hole. The intervals 1199-1550, 1621-1625, and 1720-1763 were cored and there were no indications of hole deviation inasmuch as the bedding planes were relatively horizontal, which coincides with the very low dip altitude indicated by structural mapping.

Sincerely,

*R. C. Norman*
