17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Plans have been changed to drill this well deeper than the proposed depth of 1800', which was originally stated on the C-101. Our plans are to drill to an approximate depth of 2150', and if production is favorable, we will complete in open hole from 1270-2150' in the San Andres formation.
