February 25, 1970

New Mwxico Oil Conservation Commission Drawer DD Artesia, New Mexico 88210

Attn: Mr. Bill Gressett

Dear Mr. Gressett:

On November 1, 1969, we discontinued injecting water in our Nix-Curtis "BH" No. 1 well, located in Section 25-185-25E, Eddy County, New Mexico.

November 25, 1969 the packers were pulled and the well was converted to single completion and put to producing.

Yours truly,

YATES PETROLEUM CORPORATION
