Gentlemen:

It is our understanding that a four-point test is due on this well prior to July 20, 1968. Please be advised that we have not taken the four-point test because we intend to re-acidize this well within the next ten days. After the results of this acidizing has been known, we will conduct a four-point test and forward to your office a copy for your information.

Very truly yours,

CHARLES B. READ
