Dear Mr. Williams;

In response to your letter dated October 22, 1997 in regard to the Jones D #1, #2 & #5 being producing wells. Please provide us with documentation supporting this. Failure of an operator to file these reports could result in cancelation of form C-104 for the affected wells. For your convience I have enclosed a copy of rule 1115.

In regard to the two shut in wells, if they are going to remain inoperative more than six months then they will need to be placed in the Temperary Abandonment program as per rule 201. I have also encluded rule 201 for your convience.

Yours truly,

Tim Gum
