Re: #5 Ginsberg Federal
Eddy County, New Mexico

Dear Mr. Knauf:

By this letter, Hanson Oil Corporation requests that you void our Notice of Intention to Abandon the referenced well, which was approved January 11, 1972, by R. L. Beekman.

Subsequent to the approval of the plugging procedure, the lower perforations (3721-3725') were isolated below the packer which was set at 3458'. The upper set of perforations (3408-3412') were then tested on pump and the well commenced producing oil after pumping off the load water.

Yours very truly,

Gerald E. Harrington
