(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Verbal approval was obtained by Theresa Sloan, Engineer with Yates Petroleum Corporation, from Mr. Jim Morrow with the Oil Conservation Division in Artesia, on April 5, 1994, to plug and abandon with TA Status well. The reason being is that the waterflood has been delayed due to declining oil prices. Well needs to be plugged or cased and cemented due to NMOCD Order No. R-9895. Propose to leave in TA Status for 2 months to one year. Propose to plug and abandon by setting plugs as follows:

1. 3375-3275' (100') - tag plug.
2. 2945-2845' (100')
3. 1905-1805' (100')
4. 1800-1700' (100') (across 8-5/8" shoe) - tag plug.

NOTIFY BLM (887-6544) and OCD (748-1283) 24 HOURS PRIOR TO COMMENCING PLUGGING OPERATIONS!

14. I hereby certify that the foregoing is true and correct

Signed Rusty Sloan
