Dear Mr. Gum:

Please find attached a copy of the C103 submitted with notice of intent to TA the subject well. Mr. Van Barton with the OCD had previously given Matador a verbal approval to TA the well. Matador performed a casing integrity test on the subject well on February 12, 2002 and Mr. Phil Hawkins of the NM OCD witnessed that test. A copy of the chart is attached for your review.

Matador feels as though the requirements set forth in the January 22, 2002 letter prepared by David Brooks have been met. If there is anything further that I can be of assistance with please let me know in the Midland office at 915-687-5955.

Sincerely,

Russ Mathis
Production Manager
