

Topographic map showing revised "Access Road". The road is shown as a dashed line running from the northwest corner of Section 36, T18S, R27E, to the northeast corner of Section 31, T18S, R27E, a dry hole. This road crosses the San Juan Pipeline, which bears in a northerly-southeasterly direction, traversing the northwest corner of Section 31, T18S, R27E, at the following points: 1144.5' of the NW corner of said Sec. 31 S 1340'S, of the NW corner of said Sec. 31, it is planned to use the Scoggin Draw Unit adjacent road, then turn northeast, parallel to the San Juan Pipeline, a distance of 1.4 miles, then turn south and access road to the drill site. The road would tie-in to the south side of the location shown.
