Re: State #3-A, 32-18-30  
Eddy County, New Mexico

Gentlemen:

We are returning the enclosed Form C-105 on the subject well for additional information and or corrections.

According to the tops reported the perforations 2892-96 and 2905 are in the Seven Rivers and the only zones included in this pool are the Queen and Grayburg. Also, these perms are not listed in the producing intervals.

Further, under the Formation Record the tops are not necessary here, just show sand, lime, shale etc. Six copies of this form are required and one copy of each log run.

If you have any questions concerning this matter please feel free to call upon me.

Sincerely yours,

OIL CONSERVATION COMMISSION

A handwritten signature in cursive script, reading "W. A. Gressett", is written over the typed name.
