Re: Maralo State Com.  
#1-C, 28-18-24  
Eddy County, N. M.

Gentlemen:

We are returning the enclosed Form C-103 on the subject well for clarification and additional information. In my conversation with Mr. Bruce Monroe, I understood that the interval 8229-31 was perforated, treated, tested and the BP was set @ 8224 and the interval 8209-16 was perforated, treated and tested.

Please clarify this and show the flow test information in MCF gas and amount of water produced from each or both zones and the current status of the well.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W. A. Gressett  
Supervisor, District II
