17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was drilled to a total depth of 2935' and encountered salt water in the Loco Hills Sand. Pursuant to telephone conversation with Mr. Knauf, this well was plugged and abandoned November 26, 1975 as follows:

35 sack cement plug in bottom of hole 2930' - 2830'
35 sack cement plug at bottom of salt 1300' - 1200'
35 sack cement plug in base of 8 5/8" casing 550' - 450'
10 sack cement plug and marker at surface.

All plugs were spotted through tubing with gel between plugs.
The plugging was done by Halliburton.
