HONDO DRILLING COMPANY

By: [Signature]  
Walter Frederickson  
Vice President

Sworn and subscribed to before me the undersigned authority, on this the  
23 rd day of January, 1976.

[Signature] Notary Public in and for Midland County, Texas.

Joyce Wood

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, a target (a small circle) is displayed. The participant's hand is positioned at a starting point (a larger circle). The distance between the starting point and the target is labeled as 'Distance'. The participant's hand is also labeled as 'Hand'.

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent standard deviation.
