If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Hondo Drilling Company needs permission to blow the above well into our pit for 1 hour out of every 24 hours to unload water accumulation of approximately 1/2 bbl. every day. If this is not done, the water build-up will kill the well.

NOTE: Blow down pit must be an approved fenced pit or a sandstone Brown Tank.
