Re: Multi Point Back Pressure Test
Empire South Deep Unit Well No. 14
Unit G, Sec. 5, T-18-S, R-29-E
Eddy County, NM

Mr. W.A. Gressett
Oil Conservation Division
P.O. Drawer DD
Artesia, NM 88210

Dear Mr. Gressett:

In reply to Report Due Notice dated November 20, 1978 requesting multi point back pressure test on subject well. Due to erratic and poor production performance of this well we have been unable to complete an AOF test on this well. We can run part of the test but the well ceases to produce before the test can be completed. We have attempted to increase and stabilize the production but to no avail.

The tabulation below demonstrates the erratic production:

July	1978	510 MCF
Aug	1978	157 MCF
Sept	1978	0 MCF
Oct	1978	420 MCF

We have scheduled another AOF test to be run in early December and will file results with you as soon as possible.

Yours very truly,

RWC:sa
