90-Day Period ENding 7-84

Department of Energy & Minerals
Oil Conservation Division
P. O. Box 2088
Santa Fe, NM 87501

Gentlemen:

This is to inform you that the above captioned well produced above the sixty MCF per day limit for the ninety day period ended July 31, 1984. However, the increase in natural gas production is a result of pressure buildup which occurred when the well was temporarily shut in.

Therefore, enclosed for filing with the Oil Conservation Division is Gulf Oil Corporation's Petition for Determination of Increased Production resulting from temporary pressure buildup. Enclosed is a copy of the Notice of Increase in Production and current production and downtime monitoring worksheet.

Any communication from the Oil Conservation Division regarding this Petition should be directed to:

Director - Gas Accounting
Gulf Oil Corporation
P. O. Box 1150
Midland, Texas 79702
Phone: 915-685-4855

Please stamp the enclosed copy of this letter with the date and time of filing, and return to me in the enclosed, self-addressed envelope.

Yours very truly,

R. C. ANDERSON

RL/skc
