17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We propose to temporarily abandon present Morrow perfs 8488-8520' in order to test the Strawn pays. We will set a standing valve in the Morrow packer, load the hole, set a retrievable bridge plug at about 8200', perforate 8072-82' and 8100-8108', stimulate as needed for production. Will re-open the Morrow completion after evaluating the Strawn reserves.
