Gentlemen:

NAPECO hereby requests that the Conservation Commission grant 320 acre spacing, with an option to drill a second well, under temporary field rules. This is requested due to the uncertainty, at this stage, of the anticipated reserves from the well.

If a hearing will be required on this request, it will be appreciated if you will let us know the date of the hearing at your earliest convenience.

Should different spacing be justified in the future, we will file another request.

Very truly yours,

NAPECO Inc.
