Re: Cobb-Federal #1
Unit A Section 22, 18S, 27E
Eddy County, New Mexico

Gentlemen:

In reference to the construction of an electric power line, a Form 9-331 (Sundry Notices and Reports on Wells) dated 11-12-80 was filed with your office. Upon inquiring the status of our application, we were informed by Mr. Bill Atkins of the Bureau of Land Management that if the construction of the proposed electric line would not cross lease boundaries, an application for right-of-way was not needed.

Enclosed please find a plat showing the existing electric source and the meter pole and secondary pole along with scaled distances to and from the existing electric source. We are enclosing a copy of the letter with plat to be forwarded to the Bureau of Land Management to the attention of Mr. Bill Atkins.

A written approval would be appreciated in order that the construction of said line may be commenced.

Thank you for your time and cooperation in this matter. If further assistance is needed, please advise.

Yours very truly,

A handwritten signature in cursive script that reads "Irene Rosas".

Irene Rosas
Drilling and Production Assistant
