

DATA SHEET

This data sheet is provided in reference to the attached "Application for Permit to Drill" Anadarko's; Ballard Grayburg San Andres Unit Tract No. 8, Well No. 6

1. Location: 380' FNL & 2600' FWL Sec. 5, T18S, R29E, Eddy County, N. M.

2. Elevation: 3564.7' GL

3. Geological Name of Surface Formation: Triassic Doakum (Santa Rosa)

4. Type of Drilling Tools to be utilized: Rotary Tools.

5. Proposed Drilling Depth: 2845'

6. Tops of Important Geological Markers:

T. Salt - 300'	7-Rivers - 1300'
B. Salt - 800'	Queen - - - 1970'
Tansill - 850'	Grayburg - - 2360'
Yates - - 920'	San Andres - 2770'

7. Estimated Depth of Anticipated Water, Oil or Gas:

Oil: - - - 2360' - 2770'

8. Casing Program:

8-5/8" - 24.0# K-55 or J-55 - New

5-1/2" - 15.5# K-55 or J-55 - New

9. Setting Depth of Casing:

8-5/8" - 350' - approx 200 sx cement

5-1/2" - 2845' - approx 500 sx cement

10. Specifications for Pressure Control Equipment: See attached Schematic

This Warton Rig is equipped with a Series 900 BOP with 4" Blind Rams, kill line and choke manifold; Koomey Hydraulic Controls and Accumulator with remote controls. When nipping up, test BOP and Choke to 1000 psi. Operate BOP equipment once a day, or as directed by Company Representative.

11. Mud Program:

Spud and drill with fresh water Native Mud to a depth of approx. 350'. Drill out from under surface casing with 10# brine water to within 50' of T D while maintaining a Ph of 10. At this point paper & gel will be used to clean hole prior to running Open Hole Logs.

12. Testing, Logging & Coring Program:

a. Testing: No drill stem tests will be conducted.

b. Coring: No coring is planned but there is a possibility the well will be cored.

c. Logging: Open Hole Logs will be run prior to running 5½" casing.

13. Potential Hazards:

None are expected. Above described BOP should take care of any blowout. Numerous wells have been drilled in this area without problems.

14. Anticipated Starting Date & Duration:

Plan to begin drilling operations about April 1, 1982. Approximately 6 days are required to drill the well and 2 weeks for completion.

15. Other Facets:
