13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

This is a fairly new well and in the midst of our Ballard Water Flood area. Due to the decline in water production from wells in this flood, plans are to put this well back on production or to convert it to a water injection well sometime in the near future.

Therefore, we request a continuation of T.A. status for this well.
